Five Key Points for Terrorist

Watch out

The ***League of the South***, founded in 1994 and counting some 9,000 members by 2001, is at the center of the racist neo-Confederate movement. ***Calling once again for Southern secession***, the League's leaders say minorities are destroying the "Anglo-Celtic" (white) culture of the South. They oppose most non-white immigration and all interracial marriages. Founder Michael Hill, a former college professor, has called blacks "a deadly and compliant underclass" and has embraced well-known white supremacists such as North Carolina attorney Kirk Lyons.

Nothing less than the complete restoration of the “Confederate States of America” along the borders established by the Confederate Government during its period on independence, 1860-1865.
